

EESD15

The 7th International Conference on Engineering Education for Sustainable Development

University of British Columbia, Vancouver, Canada, June 9-12, 2015

The 2015 Engineering Education for Sustainable Development conference at the University of British Columbia will explore current and future ways of thinking in this emerging field and celebrate the ground-breaking work accomplished in EESD since 2002. After 6 successful EESD conferences, EESD15 will be the first to be held outside of Europe. ***EESD 15 is the premiere forum for contributing to, and learning about, engineering education for sustainable development.***

Abstracts due Sept. 16, 2014

Conference themes include:

- History of EESD
- Current Expectations for EESD
- EESD for Graduate Students
- EESD and Green Technologies
- Trans-disciplinarity
- Leadership
- EESD, the Humanities, and the Social Sciences
- Retrofitting Engineering Education
- EESD Assessments and Continual Improvement
